

- **Vietnam by Numbers** looks at the **key economic and sector data** pertinent to Vietnam primarily through charts.
- The **same set of charts and tables will be monitored and presented**. Any commentary will be limited to the key changes that transpired and will be given the ‘less is best’ treatment, essentially letting the figures do the talking.
- The charts and tables are broadly arranged along the categories of **global/regional, domestic, and sector related**. The publication gives readers a quick snapshot of key macro, market, or sector data and used for internal or external presentations or needs.
